Appendix: Corporate Governance Statement 31

Endorsement by the Board of Directors and the CEO

Landsnet hf was established in August 2004 on the basis of the Electricity Act passed by the Icelandic parliament, the Althingi, in 2003. The role of Landsnet is to administer the transmission of electricity and system operation in accordance with the provisions of Chapter III of the Electricity Act No. 65/2003.

Results of the year 2013

According to the income statement, profit and total profit for the year amounted to ISK 2.2 billion. According to the balance sheet, the Company's equity at year end amounted to ISK 15.4 billion, including share capital in the amount of ISK 5.9 billion. Average number of employees was 122.

Share capital at year end 2013 is divided between four shareholders as at the beginning of the year:

	Share
Landsvirkjun	64.73%
Rarik ohf.	22.51%
Orkuveita Reykjavíkur	6.78%
Orkubú Vestfjarða ohf.	5.98%

Accumulated deficit amounts to ISK 1.5 billion at year end and therefore not permitted to pay dividend to shareholders.

Under the current Electricity Act, the National Energy Authority is charged with setting a revenue cap for Landsnet hf. Landnet and the National Energy Authority have been unable to agree on the settlement for the years 2006-2009. In addition, a decision is still pending on the profitability criteria for the years 2011, 2012 and 2013. This creates some uncertainty with regard to the Company's operating results and financial position at year end 2013. Note 31 provides a detailed account of the status of this issue.

Corporate governance

The Board of Directors of Landsnet hf. emphasizes maintaining good management practices. The Board of Directors has laid down comprehensive guidelines wherein the competence of the Board is defined and its scope of work vis-à vis the CEO. These rules include i.e. rules regarding order at meetings, comprehensive rules on the competence of Directors to participate in the discussion and decision of issues presented to the Board, rules on secrecy, rules on information disclosure by the CEO to the Board and other issues. The Coporate Governance Statement, which is a appendix in the Financial Statements, provides further information.

Statement of the Board of Directors and the CEO

According to the best of the Board of Director's and the CEO's knowledge, the financial statements are in accordance with the International Financial Reporting Standards as adopted by the EU and it is the Board's and CEO's opinion that the annual financial statements give a true and fair view of the financial performance of the Company for the financial year 2013, its assets, liabilities and financial position as at 31 December 2013 and its cash flows for the financial year 2013.

Further, in our opinion the financial statements and the endorsement by the Board of Directors and the CEO give a fair view of the development and performance of the Company's operations and its position and describes the principal risks and uncertainties faced by the Company (see notes 29 and 31).

The Board of Directors and the CEO have today discussed the annual financial statements of Landsnet hf. for the year 2013 and confirmed them by means of their signatures.

Reykjavik, 12 February 2014

The Board of Directors:

Geir A. Gunnlaugsson
Svana Helen Björnsdóttir
Ómar Benediktsson

CEO:

Þórður Guðmundsson

Independent Auditor's Report

To the Board of Directors and Shareholders of Landsnet hf.

We have audited the accompanying financial statements of Landsnet hf., which comprise the statement of financial position as at December 31, 2013, the statements of comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards as adopted by the EU, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of Landsnet hf. as at December 31, 2013, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the EU.

Report on the Board of Directors report

Pursuant to the legal requirement under Article 104, Paragraph 2 of the Icelandic Financial Statement Act No. 3/2006, we confirm that, to the best of our knowledge, the report of the Board of Directors accompanying the financial statements includes the information required by the Financial Statement Act if not disclosed elsewhere in the Financial Statements.

Reykjavik, 12 February 2014.

Notes to the Financial Statements

1. Reporting entity

Landsnet hf has its headquarters in Iceland and is domiciled at Gylfaflöt 9 in Reykjavik, Iceland. The Company is a subsidiary of Landsvirkjun, and the financial statement of Landsnet hf. is included in the consolidated financial statements of Landsvirkjun. Landsnet was established in 2004 on the basis of the Electricity Act passed by the Icelandic parliament, the Althingi, in the spring of 2003. The role of Landsnet is to administer the transmission of electricity and system operation in accordance with the provisions of Chapter III of the Electricity Act No. 65/2003, which stipulates that the Company must not engage in any activities other than necessary to perform its duties under the Act.

2. Basis of preparation

The financial statements have been prepared in accordance with the International Financial Reporting Standards (IFRS) as adopted by the EU.

The financial statements were approved by the Board of Directors on 12 February 2014.

Details of the Company's accounting policies are included in note 35.

3. Functional and presentational currency

These financial statements are presented in Icelandic krónur (ISK), which is the Company's functional currency. All financial information presented in ISK has been rounded to the nearest thousand.

4. Use of estimates and judgements

The preparation of the financial statements in conformity with IFRS standards requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following notes:

- Note 13 and 35c - Fixed assets in operation
- Note 14 and 35d - Intangible assets
- Note 26 and 35j - Estimation of provision due to site restoration
- Note 24 and 35n - Income tax

Determination of fair values

A number of the Company's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability. Lansdnet revaluates part of fixed assets to fari value, as stated in note 13, just as they do with marketable securities, as stated in note 19. Other assets and liabilities are not recognised at fair value.

Trade and other receivables

The fair value of trade and other receivables is measured at the estimated discounted cash flow, based on market interests on the reporting date.

Non-derivative financial liabilities

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of intest at the reporting date.

See accounting policies in note 35k

Transmission revenue consist of:

	2013	2012
Energy transmission	12.277.156	10.916.642
Transmission losses and ancillary services	1.320.226	1.203.586
Service income	30.950	26.497
Input fees	89.416	82.033
Transmission revenue total	13.717.748	12.228.758

Notes, continued

5. Revenue, contd.:

Landsnet's largest customers are also shareholders in the company. Further information on revenues from shareholders is provided in Note 32 on related parties.

6. Energy transmission

Energy transmission consist of:

	2013	2012
Energy transmission to power-intensive consumers	8.785.696	7.660.746
Energy transmission to distribution system operators	3.491.460	3.255.896
Energy transmission total	12.277.156	10.916.642

7. Other income

Other income consist of:

	2013	2012
Income from work sold	74.501	61.924
Rental income	8.828	11.169
Income from guarantees of origin and certification	70.823	41.397
Sales profit from fixed assets	865	1.214
Other income	1.517	0
Other income total	156.534	115.704

8. Energy procurement costs

Energy procurement costs consist of:

	2013	2012
Electricity purchases due to transmission losses	854.946	883.967
Purchase of ancillary services	644.858	499.877
Energy procurement costs total	1.499.804	1.383.844

9. Personnel expenses

See accounting policies in note 35i

Salaries and other personnel expenses consist of:

	2013	2012
Salaries	1.182.882	1.042.459
Defined contribution plan payments	143.152	125.613
Defined benefit plan payments	8.178	11.909
Other payroll expenses	126.828	114.749
Capitalised salaries	(210.047)	(91.709)
Personnell expenses total	1.250.993	1.203.021

Personnel expenses are specified as follows:

	2013	2012
Transmission costs	415.458	477.950
System operation	480.889	440.482
Other operating expenses	354.646	284.589
	1.250.993	1.203.021

	2013	2012
Average number of employees	122	117
Full-time equivalent units at year-end	114	106

Remuneration of the Board of Directors, CEO and two Executive Directors were as follows:

	2013	2012
Remuneration of the Board of Directors	6.486	5.975
Remuneration and benefits of the CEO	15.440	13.225
Remuneration of two Excecutive Directors	41.621	34.688

10. Depreciation and amortisation

See accounting policies in notes 35c and 35d

Depreciation and amortisation are specified as follows:

	2013	2012
Depreciation of fixed assets in operation, see Note 13	2.509.721	2.427.328
Amortisation and impairment losses, see Note 14	88.200	40.224
Depreciation and amortisation recognised in the income statement	2.597.921	2.467.552

Depreciation and amortisation are allocated as follows to operating items:

	2013	2012
Transmission costs	2.436.690	2.298.882
System operation	66.277	56.541
Other operating expenses	94.954	112.129
Depreciation and amortisation recognised in the income statement	2.597.921	2.467.552

11. Financial income and expenses

See accounting policies in note 35m

Financial income and expenses are specified as follows:

	2013	2012
Interest income	129.748	40.318
Net gain in fair value of marketable securities	11.293	9.521
Gain on sale of shares in associate	0	17.543
Total financial income	141.041	67.382
Interest expenses	(2.161.747)	(2.216.696)
Indexation	(1.751.913)	(2.078.598)
Exchange rate difference	(328.397)	(152.823)
Change in present value of the provision due to site restoration	(40.856)	(38.226)
Capitalised interest expense due to projects under construction	271.978	80.037
Total financial expenses	(4.010.935)	(4.406.306)
Net financial expenses	(3.869.894)	(4.338.924)

Net financial expenses due to the construction of a transmission infrastructure amounting to ISK 272 million (2012: 80 million) is capitalised and has been reported as a reduction in financial expenses.

Capitalised financial expenses were 7.0% of capital tied in transmission structures under construction during the year (2012: 7.6%). This is the Company's average finance cost in the year 2013.

12. Income tax

See accounting policies in note 35n

Income tax recognised in the income statement is specified as follows:

	2013	2012
Calculated income tax for the year	539.511	184.319
Income tax recognised in the income statement	539.511	184.319

Change in deferred income tax liability is specified as follows:

	2013	2012
Change in temporary differences	(120.199)	(308.482)
Change in carry-forward losses	659.710	492.801
Change in deferred tax assets	539.511	184.319

12. Income tax, contd.:

Reconciliation of effective tax rate

		2013		2012
Profit before income tax		2.722.909		985.272
Income tax according to the current tax rate	20,0%	(544.582)	20,0%	(197.054)
Effects of associates	(0,2%)	5.011	(1,2%)	12.297
Other	0,0%	60	(0,0%)	438
Effective tax rate	19,8%	(539.511)	18,8%	(184.319)

13. Fixed assets in operation:

See accounting policies in note 35c

Basis of revaluation of fixed assets in operation

In accordance with the International Accounting Standard, the Company's lines and substations are recognised according to the revaluation method. A revaluation was conducted on those assets in the year 2008. The revaluation was based on two methods. First, it was based on the estimated reconstruction cost of the transmission system, which was calculated by independent experts at the beginning of year and projected to year-end 2008. Second, the operating value was measured using a cash flow analysis. The valuation period was from 2009 to 2013, with the future operating value calculated thereafter. The year's revaluation was based on the operating value, the main premises of which were the Company's operating budgets for the years 2009-2013, a 30% equity ratio and that Landsnet's tariff for transmission to distributors would reflect price developments in Iceland while the tariff for industrial users would reflect price level changes in the United States. The estimation of weighted-average cost of capital (WACC) was based on comparable companies abroad. It is the opinion of the Company's management that nothing gives reason for a revaluation in the year 2013. The revaluation has been categorised as level 3 fair value.

Fixed assets in operation:

Fixed assets in operation:	Substations	Transmission lines	Other	Total
1.1.2012	16.025.423	26.567.291	2.391.202	44.983.916
31.12.2012	15.794.313	25.733.557	2.605.998	44.133.868
31.12.2013	19.182.702	27.493.585	2.736.338	49.412.625

Rateable value and insurance value

The rateable value of the Company's real property amounts to upwards of ISK 2.8 billion (2012: ISK 2.7 billion). Assessed value for the same property's fire insurance amounts to ISK 5.2 billion (2012: ISK 5.2 billion) and book value amounts to ISK 3.6 billion (2012: ISK 3.7 billion). The insurance value of the Company's assets amounts to ISK 47.5 billion (2012: ISK 42.2 billion), excluding transmission lines and cables, which are insured by an emergency insurance fund. The Company's emergency insurance amounts to ISK 109.9 billion (2012: ISK 103.4 billion).

Projects under construction:

14. Intangible assets, contd.:

Preparation costs are reviewed each year by the management of Landsnet hf. and are examined for any indications of impairment. If the management believes that impairment has occurred, that preparation cost is expensed as impairment.

15. Investment in subsidiary

See accounting policies in note 35e

The breakdown of investment in subsidiary is as follows:

	2013		2012	
	Share	Carrying amount	Share	Carrying amount
Landsnet ehf	100,00%	500	100,00%	500

The Company's share in Landsnet ehf is stated at cost as the firm has not conducted any operations from its establishment.

16. Investment in associates

See accounting policies in note 35f

The breakdown of investment in associates is as follows:

	2013 Share in net earnings	2012 Share in net earnings	2013 Carrying amount	2012 Carrying amount
Orkufjarskipti hf. 50% / 50%	25.055	16.015	668.906	643.851
Netorka ehf. 0% / 0%	0	2.565	0	0
Total investment in other companies	25.055	18.580	668.906	643.851

17. Inventories

See accounting policies in note 35g

Inventories are spare parts and material inventories. No write-down due to the Company's inventories is recognised in the financial statements for the year 2013 nor for the year 2012.

18. Trade and other receivables

See accounting policies in note 35b

Trade and other receivables:

	2013	2012
Trade receivables	405.808	557.242
Other receivables	161.589	133.536
Trade and other receivables total	567.397	690.778

19. Marketable securities

See accounting policies in note 35b

Marketable securities held by the Company are listed on a stock exchange. They are liquid but cannot be classed as cash because their maturity is more than three months. The measurements of marketable securities are categorised as Level 1 fair value.

20. Cash and cash equivalents

See accounting policies in note 35b

Cash and cash equivalents consist of instant-access bank deposits.

21. Equity

See accounting policies in note 35b

Share capital

The Company's total share capital according to its Articles of Association was ISK 5,903 million at year-end. The Company holds no treasury shares. Each share of ISK in the Company carries one vote. All share capital has been paid.

21. Equity, contd.:

Revaluation account

The Company's revaluation account consists of the revaluation increase of the Company's fixed assets after income tax effects. Depreciation of the revalued price is entered in the income statement and transferred from the revaluation account to unadjusted loss.

Dividends

The Company paid no dividends in 2013 for the financial year 2012, nor in the year 2012 for the financial year 2011. Accumulated deficit amounts to ISK 1.5 billion at year end and therefore not permitted to pay dividend to shareholders.

22. Earnings per share

See accounting policies in note 35o

Basic and diluted earnings per share:

	2013	2012
Profit to shareholders	2.183.398	800.953
Weighted average number of ordinary shares at 31 December	5.902.733	5.902.733
Basic and diluted earnings per share	0,37	0,14

23. Interest-bearing loans and borrowings

See accounting policies in note 35b

This Note provides information on the contractual terms of the Company's interest-bearing loans and borrowings, which are measured at amortised cost.

	2013	2012
Long-term liabilities		
Indexed bond loan from parent company in ISK, fixed interest	44.235.700	42.675.190
Loan agreement in CHF, LIBOR + margin	6.436.052	7.830.765
Indexed bond loan in ISK, fixed interest	5.330.965	5.279.894
	56.002.717	55.785.849
Current maturities on long-term liabilities	(914.607)	(968.844)
	55.088.110	54.817.005

	2013	2012
Short-term liabilities		
Short-term loans from parent company specifies as follows:		
Accrued interest of long-term liabilities with parent company	1.448.473	1.402.366
Short-term loans from parent company total	1.448.473	1.402.366

The bond loan from the parent company is an inflation-indexed bullet loan maturing in 2020 with interest payable once per year. Inflation-indexed bond loans from third parties consist of a 25-year superannuation loan maturing in 2034. The loan agreement denominated in Swiss francs (CFH) is a bond with equal installments and maturing in 2022.

Terms of interest-bearing loans and borrowings

Debts in foreign currencies:

		2013		2012	
	Final maturity	Weighted avg. rate	Carrying amount	Weighted avg. rate	Carrying amount
Debt in CHF	2022	0,31%	6.436.052	0,39%	7.830.765
Debt in ISK:					
Indexed	2020 - 2034	4,30%	49.566.665	4.30%	47.955.084
Total interest-bearing loans and borrowings			56.002.717		55.785.849

23. Loans and borrowings, contd.:

Maturities by year of interest-bearing loans and borrowings:

	2013	2012
Árið 2014/2013	914.607	968.844
Árið 2015/2014	922.577	976.162
Árið 2016/2015	930.950	983.850
Árið 2017/2016	939.747	991.928
Árið 2018/2017	948.989	1.000.415
Later	51.345.847	50.864.650
	56.002.717	55.785.849

24. Deferred tax liability

See accounting policies in note 35n

The breakdown of deferred tax liability is as follows:

	2013	2012
Deferred tax liability at 1 January	1.791.932	1.607.613
Calculated income tax for the year	539.511	184.319
Deferred tax liability at 31 December	2.331.443	1.791.932

The breakdown of deferred tax liability was as follows at year-end:

	2013	2012
Fixed assets in operation	2.609.784	2.756.995
Intangible assets	208.035	197.008
Provision due to site restoration	(155.033)	(146.861)
Other obligations	(86.162)	(137.342)
Unrealized exchange rate difference	(53.974)	(26.951)
Tax losses carried forward	(191.207)	(850.917)
Deferred tax liability at 31 December	2.331.443	1.791.932

The carry-forward taxable loss amounted to ISK 1.0 billion. The loss is utilisable against taxable income over ten years from when the loss is incurred. The management believes that the Company's operation over the next years will generate taxable income and that the accumulated carry-forward taxable loss will be fully utilised. Carry-forward taxable loss at year-end 2013 will be utilisable until the year 2018.

25. Deferred income

Deferred income is recognised with regard to connection charges paid by electricity buyers to the Company during the year. At year-end, deferred income amounted to ISK 384 millon (2012: 308 million). The part of deferred income that will be recognised in the income statement next year is recognised in current liabilities. Connection charges recognised in profit or loss for 2013 amounted to ISK 12 million (2012: 7 million).

26. Provision due to site restoration

See accounting policies in note 35j

Change in the provision due to site restoration is specified as follows:

	2013	2012
Balance at 1.1.	734.307	696.081
Present value for the year reversed	40.856	38.226
Balance at year-end	775.163	734.307

The initial value of property, plant and equipment includes the estimated cost of the demolition thereof after use. The estimated demolition cost of lines has been valuated and discounted based on life-cycle criteria. The discounted value is recognised as a provision under long-term liabilities. In the income statement, the change in the discounting provision, which is based on a 6.9% interest rate (2012: 6.9%), is reported under financial expenses, in addition to depreciation under operating expenses.

27. Pension fund obligation

See accounting policies in note 35i

The Pension Fund for State Employees calculates at the end of each year the benefit plan obligation accrued for the year. Actuary assessment is based on the accrued obligation for the year being discounted at year-end on the basis of the annual interest rate generally used to assess pension fund obligations. The present annual rate is 3.5%. A total of ISK 8 million is expensed in relation thereto for 2013 (2012: 12 million), but the accrued benefit plan obligation is paid in full each year.

28. Trade and other payables

See accounting policies in note 35b

Trade and other payables are specified as follows:	2013	2012
Trade payables	419.108	949.683
Other payables	327.703	645.222
Trade and other payables total	746.811	1.594.905

29. Financial instruments

Overview

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

This Note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk and its management of capital. Further quantitative disclosures are included throughout these financial statements.

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board of Directors seeks consultation regarding financial risk both from its employees and external consultants and discusses it regularly at Board meetings.

The Company's objective is to discover and analyse the risks it faces, set a benchmark for risk exposure and control it. The Company's risk management policy is regularily reviewed to analyse market changes and changes within the Company.

Credit risk

Credit risk is the risk of financial loss of the Company owing to the failure of a customer or counterparty to a financial instrument to meet its contractual obligations. The Company's credit risk is mainly due to trade receivables and is dependant on the financial condition and operations of each customer.

Trade and other receivables

The Company’s main customers are electricity generating companies, distribution system operators and power-intensive consumers. The Company's largest customers are also shareholders in the Company. Approximately 87% (2012: 89%) of the Company's transmission income derives from the Company's shareholders.

Highest possible loss due to credit risk

The Company's highest possible loss due to financial assets is their book value, which was as follows at year-end:

	2013	2012
Long-term note	34.929	34.929
Receivables from parent company	0	648.398
Trade and other receivables	555.754	690.778
Market securities	234.344	251.027
Cash and cash equivalents	9.917.204	10.309.772
Highest possible loss due to credit risk total	10.742.231	11.934.904

29. Financial instruments, contd.:

Impairment losses

No impairment loss has been recognised in relation to accounts receivable at year-end; nor has loss on receivables been expensed during the year, which is based on the management's experience. As of its establishment, the Company has not incurred losses on accounts receivable. The Company's collection issues are reviewed on a regular basis.

Liquidity risk

Liquidity risk is the risk that the company will not be able to meet its financial obligations as they will fall due. The Company endeavours to ensure, to the extent possible, that it always has sufficient liquidity to meet its liabilities when due, without incurring unacceptable losses or risking damage to the Company's reputation.

The following are the contractual maturities of financial liabilities, including future interest payments:

2013	Carrying amount	Contractual cash flow	Within 12 months	1-2 years	2-5 years	After 5 years
Non-derivative financial liabilities:						
Long-term liabilities from parent comp.	45.684.173	57.271.961	1.862.323	1.862.323	5.586.969	47.960.346
Long-term liabilities	11.767.017	15.144.891	1.239.031	1.225.321	3.698.011	8.982.528
Trade and other payables	1.234.864	1.234.864	1.234.864	0	0	0
	58.686.054	73.651.716	4.336.218	3.087.644	9.284.980	56.942.874
2012						
Long-term liabilities from parent comp.	44.077.556	56.474.945	1.796.625	1.796.625	5.389.876	47.491.819
Long-term liabilities	13.110.659	16.541.910	1.233.020	1.229.907	3.671.118	10.407.865
Trade and other payables	1.594.905	1.594.905	1.594.905	0	0	0
	58.783.120	74.611.760	4.624.550	3.026.532	9.060.994	57.899.684

Market risk

Market risk is the risk that changes in the market prices of foreign exchange rates and interest rates will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising return.

Currency risk

Currency risk is the risk of a loss because of unfavorable changes in the rate of currencies. The Company is exposed to currency risk on sales, purchases and borrowings that are denominated in a currency other than the Company's functional currency. The Company's functional currency is the Icelandic króna (ISK) and therefore a currency risk arises from the net cash flow and opening balance in currencies other than ISK. Supstantial part of the Company's income derives from US dollars. In 2013, 62.7% (2012: 65.8%) of the Company's total revenue was in USD while purchases were mainly in ISK but a portion of its purchases is made in other currencies than Icelandic króna (ISK), mainly in euro (EUR) and Swedish krona (SEK). The main currencies posing a foreign exchange risk are the USD and the Swiss Francs (CHF). In 2014, it is estimated that 60.5% of the Company's total revenue will be in USD.

29. Financial instruments, contd.:

The Company does in general not hedge against foreign exchange risk but reviews on a regular basis the currency combination of its liabilities against the currency combination of its income.

The Company's currency risk on borrowings denominated in Swiss Francs (CHF), is partly hedged against its revenues. The interest rates on these borrowings are on average lower than those on the Company's ISK-denominated borrowings.

The Company's exposure to foreign currency risk, based on nominal amounts, was as follows:

	EUR	CHF	USD
2013			
Cash and cash equivalent	10.991	25.987	8.541.356
Trade and other receivables	424	0	294.025
Other long-term liabilities	0	(6.436.052)	0
Trade and other payables	(61.263)	0	(15.680)
Net currency risk	(49.848)	(6.410.065)	8.819.701
2012			
Cash and cash equivalent	190.826	50.782	9.348.845
Trade and other receivables	0	0	255.691
Other long-term liabilities	0	(7.830.765)	0
Trade and other payables	(104.605)	0	(45.078)
Net currency risk	86.221	(7.779.983)	9.559.458

	Av. exch. rate for the year		Year-end exch. rate	
	2013	2012	2013	2012
Currency risk				
EUR	162,38	160,73	158,50	169,80
CHF	131,91	133,35	129,19	140,64
USD	122,23	125,05	115,03	128,74

Sensitivity analysis

A 10% strengthening of the ISK against the following currencies at 31 December would have increased (decreased) after-tax profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant. The analysis is performed on the same basis for 2012.

	2013	2012
EUR	3.988	(6.898)
CHF	512.805	622.399
USD	(705.576)	(764.757)

A 10% weakening of the ISK against the above currencies at 31 December would have had the equal but opposite effect on profit or loss after tax to the amounts shown above, given that all other variables remain constant.

Interest rate risk

The Company´s interest rate risk arises from interest bearing assets and liabilities. The Company's borrowings bear both floating and fixed interest. The majority of the Company's borrowings bear fixed interest, cf. Note 23. At year end 2013, the proportion of liabilities with floating interest rates was 11% compared to 14% at year end 2012.

29. Financial instruments, contd.:

The breakdown of the Company's interest-bearing financial instruments at year-end was as follows:

	Carrying amount 2013	Carrying amount 2012
Financial instruments with floating interest rate		
Financial assets	10.186.477	10.595.728
Financial liabilities	(6.436.052)	(7.830.765)
	3.750.425	2.764.963
Financial instruments with fixed interest rate		
Financial liabilities	(49.566.665)	(47.955.084)

Cash-flow sensitivity analysis for fixed-interest-rate instruments

The Company's liabilities carrying fixed interest rates are, on the one hand, an indexed bullet bond repayable in a single payment in 2020 to its parent company and, on the other, a 25-year superannuation bond loan. These liabilities are not recognised at fair value. Therefore, interest changes on the settlement date should not affect the Company's income statement.

Cash-flow sensitivity analysis for floating interest rate instruments

An increase in interest rates of 100 basis points at the reporting date would have increased (decreased) equity and profit or loss after tax by the amounts stated below. If interest rates had decreased by 100 basis points, the effect would have had the equal but opposite effect on profit or loss after tax. This analysis assumes that all other variables, in particular the exchange rates, remain constant. The analysis was performed in the same manner for the year 2012.

	Earnings 100bp increase	Earnings 100bp decrease
31 December 2013		
Financial instruments with floating interest rates	26.061	(7.788)
Cash flow sensitivy (net)	26.061	(7.788)
31 December 2012		
Financial instruments with floating interest rates	22.610	(61.458)
Cash flow sensitivy (net)	22.610	(61.458)

Fair value

Fair value versus carrying amounts

The fair values and carrying amounts of financial assets and liabilities as reported in the balance sheet are specified as follows:

	2013 Carrying amount	2013 Fair value	2012 Carrying amount	2012 Fair value
Long-term liabilities from parent company	(44.235.700)	(49.842.048)	(42.675.190)	(49.613.500)
Other long-term liabilities	(11.767.017)	(13.115.500)	(13.110.659)	(14.398.193)
	(56.002.717)	(62.957.548)	(55.785.849)	(64.011.693)

The fair values of other financial assets and liabilities are equivalent to its carrying amounts.

Interest rate in valuation of fair value

Where applicable, expected contractual cash flow is discounted using the interest rate on government bonds plus a 0.4% margin on the reporting date. The same margin was used in discounting expected contractual cash flow in the year 2012.

29. Financial instruments, contd.:

Classification of financial assets and liabilities

The following table shows the Company's classification of financial assets and liabilities:

	Financial assets and liabilities designated at fair value	Loans and receivables	Financial liabilities at amortised cost	Carrying amount
2013				
Long-term note		23.286		23.286
Receivables from parent company		0		0
Trade and other receivables		567.397		567.397
Marketable securities	234.344			234.344
Cash and cash equivalents		9.917.204		9.917.204
	234.344	10.507.887	0	10.742.231
Loans from parent company		488.053	45.684.173	46.172.226
Other long-term liabilities			11.767.017	11.767.017
Trade and other payables		746.811		746.811
	0	1.234.864	57.451.190	58.686.054
2012				
Long-term note		34.929		34.929
Receivables from parent company		648.398		648.398
Trade and other receivables		690.778		690.778
Marketable securities	251.027			251.027
Cash and cash equivalents		10.309.772		10.309.772
	251.027	11.683.877	0	11.934.904
Loans from parent company			44.077.556	44.077.556
Other long-term liabilities			13.110.659	13.110.659
Trade and other payables		1.594.905		1.594.905
	0	1.594.905	57.188.215	58.783.120

Indexation risk

Indexation risk derives from changes in the Consumer Price Index, which affect the financial position and cash flows of inflation-indexed financial instruments. The majority of the company's loans are denominated in inflation-indexed ISK, while the majority of its revenue is USD-denominated

Other market price risk

Other market price risk is limited because investment in bonds and shares is an insubstantial part of the Company's operations.

Capital management

The Company is not subject to external rules on minimum capital requirements.

30. Operating leases

The Company as lessee

The Company leases a part of the transmission structures it uses from domestic energy companies. The lease agreements have an indeterminate lease term and the lease price is determined by the National Energy Authority. Expensed lease payments in 2013 amounted to ISK 166 million (2012: ISK 131 million).

31. Uncertainty

Under the Electricity Act No. 65/2003, the National Energy Authority shall set a revenue cap for Landsnet hf. in advance and for a specified period. The cap was initially set for a single year at a time, which applied for 2005 and 2006. In 2006, the revenue cap was for the first time set for a three-year period, 2007-2009, as prescribed by the then current Act. The 2010 revenue cap was not set by the Authority until August 2012, and then for only a single year owing to amendments to the Electricity Act that took effect in 2011.

Act No. 19/2011 introduced a number of amendments to the Electricity Act with respect to the revenue cap regime, which apply to the setting of the revenue cap as of 2011. The main changes were that the revenue cap period was lengthened from three to five years, profitability was to be based on weighted average cost of capital (WACC) instead of the yield on 5-year non-indexed government bonds, the asset base for power-intensive consumers was converted from ISK to USD and account was taken of investment in current assets. Under the current Electricity Act, a profitability limit must be determined separately for power-intensive consumers on the one hand and distribution system operators on the other hand. The revenue cap must be set no later than 15 September of the year prior to the year in which it takes effect.

On 1 October 2012, the National Energy Authority issued a decision on the weighted average cost of capital to be effective from 1 January 2011. Stakeholders appealed the decision to the Appeals Committee on Electricity, which overturned it on 2 December 2013. The rationale for overturning the Authority's decision was that further reasoning was required to determine risk premiums and interest margins. Under the Appeals Committee's decision, the Authority must issue a new decision on profitability criteria based on a new opinion delivered by an expert committee.

The revenue cap for 2011-2015 was established by the Authority on 28 July 2013 and was based on the aforesaid decision on profitability parameters, which has now been overturned.

Under the Electricity Act, the Authority must no later than 1 August of each year submit to the transmission system operator the updated revenue cap and the settlement for the preceding year, including reasoning for any changes. The Authority and Landsnet have been unable to agree on the settlement for the years 2006-2009 owing to different interpretations of the profitability criteria for distribution system operators; there is no disagreement about the revenue cap for power-intensive consumers.

Landsnet has twice appealed the Authority's decision regarding the settlement for the years 2006-2009 to the Appeals Committee on Electricity, which overturned both of the Authority's decisions and referred the case back to it for a reassessment. The Authority issued a third decision on the settlement for the said period on 20 December 2012, which has also been appealed. On 12 April 2012, the Authority issued a decision on the revenue cap settlement for 2010. This decision is not in dispute. The delays in effecting a settlement for the years 2006-2009 and 2011-2012 have caused some uncertainty with regard to the Company's performance measurement and financial position.

Power-intensive consumers

Between 2005 and August 2007, Landsnet's revenue and revenue cap for power-intensive consumers were denominated in ISK. In August 2007, after obtaining the National Energy Authority's approval, the tariff currency for power-intensive consumers was changed to USD, without changing the revenue cap accordingly.

Following the sharp ISK depreciation in 2008, Landsnet's USD-denominated revenue from power-intensive consumers increased substantially in ISK. The government authorities showed willingness to address the problem that this presented for the revenue cap regime and to amend legislation in order that the revenue cap for power-intensive consumers would be denominated in the same currency as the tariff. With Act No. 19/2011, amending the Electricity Act, the asset base from which profitability and depreciation are derived as determinants of the revenue cap for power-intensive consumers was converted to USD based on the exchange rate at 31 July 2007, thereby redressing the balance between the revenue cap and the tariff. Since 2011, Landsnet has accrued a credit balance vis-à-vis power-intensive consumers, and the Company estimates that obligations due to over-collected revenue in previous years have been settled in accordance with the provisions of law, whereas the Authority's revenue cap settlement remains pending.

Distribution system operators

At year-end 2012, a dispute remained to be resolved between Landsnet and the National Energy Authority regarding the profitability criteria used to determine the revenue cap for distribution system operators for the period 2006-2009 and the interpretation of a transitional provision of the Electricity Act on this matter. Since the final decision in this matter is still pending, the level of the revenue cap for distribution system operators during this period remains unclear. According to Landsnet's calculations, obligations resulting from over-collected revenue may amount to between ISK 0.1 billion and up to ISK 1.5 billion

31. Uncertainty, contd.:

In response to decisions by the National Energy Authority, Landsnet has initiated legal proceedings before the Reykjavík District Court to determine the interpretation of the said transitional provision, which applies to the period 2006-2009, but this case is pending until the Appeals Committee on Electricity delivers its decision.

Provisions of law concerning repayments

A transitional provision of Act No. 19/2011, amending the Electricity Act, provides that, in the event of the transmission system operator's over-collection of revenue for previous years, the Company shall set its tariff at a level ensuring that over-collected revenue does not exceed 10% of the revenue cap at year-end 2020. Over-collected revenue is not subject to interest calculation or inflation-indexation.

The provisions of the Act do not require Landsnet to deliver cash or other assets in repayment of over-collected revenue, nor to provide additional services without charge. Instead, the over-collection of revenue shall be corrected through general changes to the transmission tariff in the following years. Landsnet bases its tariff decisions on the revenue cap and the repayment provision.

On the basis of the provisions of law governing the repayment of over-collected revenue and the provisions of the International Financial Reporting Standards, no effects of revenue-cap-based settlements for 2006-2012 are recognised in the annual financial statements.

32. Related parties

Definition of related parties

The Company has a related-party relationship with its shareholders, subsidiary, associates, directors, excecutive officers and companies in their possession.

Transactions with senior management

(i) Payments to senior management

In addition to receiving salaries, the Chief Executive Officer and Managing Directors (Vice Presidents) of the Company enjoy various benefits and a contribution to a defined benefit pension fund. Management's salaries are accounted for in Note 9.

Other transactions with related parties

	2013	2012
Sale of goods and services:		
Landsnet's parent company and its subsidiaries	6.656.405	6.747.318
Landsnet's other shareholders	4.765.500	4.390.775
Sale of goods and services to related parties total	11.421.905	11.138.093
Cost:		
Landsnet's parent company and its subsidiaries	1.418.704	1.130.216
Landsnet's other shareholders	509.992	665.616
Cost of goods and services to related parties total	1.928.696	1.795.832

In addition the costs outlined above, the Company paid ISK 1,802 million (2012: ISK 1,815 million) in interest to its parent company.

Balance:

Trade receivables and trade payables with related parties are as follows:

	2013		2012	
	Receivables	Payables	Receivables	Payables
Landsnet's parent company and its subsidiaries	0	(488.053)	648.398	0
Landsnet's other shareholders	398.764	(14.252)	401.646	(53.624)
	398.764	(502.305)	1.050.044	(53.624)

Other receivables and payables with related parties are as follows:

	2013	2012
Interest-bearing liabilities to parent company, see note 23	44.235.700	42.675.190
Accrued interest payable to parent company	1.448.473	1.402.366
	45.684.173	44.077.556

33. Financial ratios

The company's key financial ratios:

Financial performance:		
EBIT	6.567.748	5.305.616
EBITDA	9.165.669	7.773.168
Financial position:		
Current ratio – current assets/current liabilities	3,12	3,13
Equity ratio – equity/total assets	19,9%	17,7%
Return on equity	16,5%	6,4%

The Company's revenue is determined under Article 12 of the Electricity Act and is based, inter alia, on a decision on profitability. The profitability parameters under the Act are determined on the basis of cost of capital in the market and a certain capital structure. The return on the calculated equity according to the revenue cap set for 2013 was just over 9%. The Company's equity ratio is somewhat lower than assumed in the profitability criteria, but its return on equity based on the revenue cap criteria is in line with the objectives on which the determined profitability is based.

34. Basis of measurement

The financial statements have been prepared on the historical cost basis, except for:
- The Company's transmission system is recognised at a revalued amount, which was its fari value at revaluation date in the year 2008.
- Financial assets at fair value through profit and loss are recognised at fair value.

35. Significant accounting policies

The following accounting methods have been consistently applied to all disclosed periods in the financial statements.

The following table of contents shows the pages on which various significant accounting policies may be found.

a. Foreign currency 25
b. Financial instruments 26
c. Property, plant and equipment 27
d. Intangible assets 28
e. Investment in subsidiaries 28
f. Investment in associates 28
g. Inventories 28
h. Impairment 28
i. Employee benefits 29
j. Provisions 29
k. Revenue 29
l. Lease payments 29
m. Finance income and expenses 30
n. Income tax 30
o. Earnings per share 30
p. Segment reporting 30
q. New standards and interpretations thereof 30

a. Foreign currency

Transactions in foreign currencies are translated to the functional currency of the Company at the exchange rates on the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies on the reporting date are retranslated to the functional currency at the exchange rate on that date. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate on the date that the fair value was determined. Foreign currency differences arising on retranslation are recognised in profit or loss.

3. Significant accounting policies, contd.:

b. Financial instruments

(i) Non-derivative financial instruments

The Company initially recognises loans, receivables and cash and cash equivalents on the date that they are originated. All other financial assets (including assets designanted as at fair value through profit or loss) are recognised initially on the trade date, which is the date that the Company becomes a party to the contractual

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest is such transferred financial assets that is created or retained by the Company is recognised as a separate asset or liability.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

The Company classifes non-deravative financial assets into the following catagories: financial assets at fair value through profit or loss and loans and receivables.

Financial assets at fair value through profit or loss

An instrument is classified at fair value through profit or loss if it is held for trading or is designated as such upon initial recognition. Financial instruments are designated at fair value through profit or loss if the Company manages such investments and makes purchase and sale decisions based on their fair value. Upon initial recognition, attributable transaction costs are recognised in profit or loss when incurred. Financial instruments at fair value through profit or loss are measured at fair value, and changes therein are recognised in profit or loss.

Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest method, less any impairment losses.

Loans and receivables comprise trade and other receivables.
Cash and cash equivalents comprise cash balances and call deposits.

(ii) Non-derivative financial liabilities

The Company initially recognises debt securities issued and subordinated liabilities on the date that they are originated. All other financial liabilities (including liabilities designated as at fari valure through profit or loss) are recognised initially on the trade date, which is the date that the Company becomes a party to the contractual provisions of the instrument.

The Company derecognises a financial liability when its contractual obligations are discharged, cancelled or expire.

The Company classifies non-derivative financial liabilities into the other financial liabilities category. Such financial liabilities are recognised initially at fair value less any directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities are measured at amortised cost using the effective interest method.

Other financial liabilities comprise loans and borrowings and trade and other payables.

(iii) Share capital

Share capital is classified as equity. Incremental costs directly attributable to the issue of shares are recognised as a deduction from equity.

3. Significant accounting policies, contd.:

c. Property, plant and equipment

(i) Fixed assets in operation

Items of fixed assets in operation other than transmission lines and substations are measured at cost less accumulated depreciation and impairment losses.

The cost includes expenditures directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the asset to a working condition for its intended use and the costs of dismantling and removing the items as well as restoring the site on which they are located.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

In accordance with the provisions of the International Accounting Standards, the Company's transmission lines and substations are recognised on the basis of the revaluation method. The Company's transmission lines and substations are thus stated at a revalued cost in the balance sheet, which is their fair value on the revaluation date less revalued depreciation from the assets' acquisition date. The revaluation of those assets will be performed on a regular basis and when the management believes that their fair value has changed significantly, among other things due to external factors. All value increases due to the revaluation are entered in a revaluation account among equity after income tax. Depreciation of the revalued price is recognised in the income statement. Upon sale or disposal of an asset, the part of the revaluation account pertaining to that asset is recognised in retained earnings.

Any gain on disposal of an item of fixed assets in operating (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognised in profit or loss as other income but any loss on disposal of an item of fixed assets in operation is recognised in profit or loss as other operating expenses.

(ii) Transmission structures under construction

Projects under construction are capitalised on the basis of the cost of purchased services, materials, direct wages and other costs directly attributable to the property. Assets that have not been put to use are not depreciated. Cost of capital for financing the cost of projects under construction is capitalised in the period that the asset is being constructed and is considered a part of the cost of the asset. Capitalised cost of capital is the Company's weighted average cost of capital.

(iii) Leased assets

The leases the Company holds are operating leases. Leased assets are not recognised in the Company's balance sheet.

(iv) Subsequent costs

The cost of replacing a part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The costs of day-to-day servicing of fixed assets in operation are recognised in profit or loss when incurred.

(v) Depreciation

Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each part of an item of property, plant or equipment until the salvage value is reached. The estimated useful lives are as follows:

Substations	20 - 40 years
Transmission lines	20 - 50 years
Buildings	50 years
Other assets	4 - 10 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date.

3. Significant accounting policies, contd.:

d. Intangible assets

(i) Developement cost

Developement cost is capitalised within fixed assets. This cost consists largely of expenses relating to exploration for transmission line sites, preparation for transmission structures and environmental impact assessments of proposed projects. The Company has concluded agreements whereby the prospective buyers of electricity shall bear all expenses of the project if it is cancelled. Cost of capital attributable to developement costs is capitalised except when there is a extended delay on the projects. Developement cost is not depreciated at this stage, but possible impairment losses have been considered, as discussed in Note 35h.

When the decision to construct a transmission structure has been made and all neccessary approvals have been obtained, the development cost of the transmission structure is capitalised in fixed assets as a project under construction.
At each accounting date, capitalised development cost is reviewed by management and impairment is recognised if premises for the recognition of development cost no longer exist.
Expenditure on research activities is recognised in profit or loss when incurred.

(ii) Software and other intangible assets

Software and other intangible assets are measured at cost less accumulated amortisation and accumulated impairment losses.

(iii) Amortisation

Amortisation is recognised in profit or loss on a straight-line basis over the estimated useful lives of intangible assets. The estimated useful lives of software are 4 years.

e. Investment in subsidiaries

The Company has one subsidiary, Landsnet ehf. The financial statements of the two companies are not consolidated and the holding is recognised at historical cost. The subsidiary has had no activity since its establishment. The share capital of the subsidiary is ISK 500 thousand.

f. Investment in associates

Associates are those entities in which the Company has significant influence, but not control, over financial and operating policies. Significant influence is presumed to exist when the Company holds between 20 and 50 percent of the voting power of another entity. Associates are accounted for using the equity method and are initially recognised at cost. The financial statements include the Company's share of the total recognised gains and losses of equity movements of associates on an equity-accounted basis from the date that significant influence commences until the date that the significant influence ceases. When the Company's share of losses exceeds its interest in an associate, the Company's carrying amount, including any long-term investments, is reduced to nil and recognition of further losses is discontinued except to the extent that the Company has undertaken an obligation for or made payments on behalf of the investee.

g. Inventories

Inventories are measured at the lower of cost and net realisable value. Net realisable value is the expected sales price in normal operation net of any cost of selling the product. The cost of inventories is based on the first-in-first-out (FIFO) principle of inventory valuation and includes cost incurred in acquiring the inventories and bringing them to their existing location and condition.

h. Impairment

(i) Financial assets

A financial asset is assessed at each reporting date to determine whether there is any objective evidence that it is impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the original effective interest rate.
Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics.

All impairment losses are recognised in profit or loss.

3. Significant accounting policies, contd.:

(ii) Other assets

The carrying amount of the Company's other assets, except for inventories and deferred tax assets, is reviewed at each reporting date to determine whether there is any indication of an impairment loss. If any such indication exists, the asset's recoverable amount is estimated.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its estimated recoverable amount. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows of other assets or groups of assets (the "cash-generating unit"). Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit (group of units) on a pro rata basis. An impairment loss of revalued assets is recognised in revaluation account amongst retained earnings.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

i. Employee benefits

(i) Defined contribution plans

The Company pays a contribution for part of its employees to defined contribution pension funds. The Company has no responsibility regarding the obligations of the pension funds. The contributions are recognised as an expense under salary and salary related expenses as incurred.

(ii) Defined benefit plans

Under an agreement between the Company and the Pension Fund for State Employees (LSR), the Company's obligations regarding employees who are members of LSR shall be settled yearly. LSR estimates specifically at year-end the present value of the pension obligation accrued during the year and deducts from that amount the contributions paid by employees and the Company to LSR due to pension rights accrued during the year. The difference is recognised in profit or loss and settled on a yearly basis. The actuarial estimation shall assume that the obligation accrued for the year is calculated to the present value at year-end using the interest rate normally used to estimate the obligations of pension funds, which is currently 3.5% per annum.

j. Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are estimated by discounting the expected future cash flows at a pre-tax rate that reflects the current market assessment of the time value of money and the risks specific to the liability.

(i) Site restoration

The Company has estimated the cost of demolition of current line lots. The estimation is based on expert assessment. The demolition cost has been discounted based on the estimated useful life of the Company's power transmission lines. The discounted value is entered, on the one hand, as an increase for the relevant asset and, on the other hand, as an obligation in the balance sheet.

k. Revenue

Income from electricity transmission is recognised in the income statement on the basis of measured delivery during the year. Other revenue is recognised as earned or delivered. A revenue cap is set for the Company on

l. Lease payments

Payments made under operating leases are recognised in profit or loss on a straight-line basis over the term of the lease.

An asset lease is expensed in the financial statements, the amount of which corresponds to financing cost and depreciation during the year, in relation to the use of electricity companies' transmission structures. The lease charge is regulated by the National Energy Authority.

3. Significant accounting policies, contd.:

m. Finance income and expenses

Finance income comprises interest income on funds invested, changes in the fair value of financial assets at fair value through profit or loss and foreign exchange rate differences recognised in profit or loss. Interest income is recognised as it accrues in profit or loss, using the effective interest method.

Finance expenses comprise interest expense on borrowings, reversal of discounting of obligations, foreign exchange losses, changes in the fair value of financial assets at fair value through profit or loss and impairment losses recognised on financial assets.

Foreign currency gains and losses are reported on a net basis.

n. Income tax

Income tax on the profit for the year is deferred income tax. Income tax is recognised in profit or loss except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Deferred tax is recognised using the balance sheet method, providing for temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised. The income tax rate is 20%.

o. Earnings per share

The Company presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is the same as basic EPS, as the Company has not issued any call options or convertible bonds.

p. Segment reporting

Under the Electricity Act, the Company may only administer the transmission of electricity and system management in Iceland and operate an electricity trading market. The Company has not begun operating an electricity trading market and considers its present operation as one single segment, for which reason it does not provide segment reporting.

q. New standards and interpretations thereof

The Company has implemented all International Financial Reporting Standards, amendments thereto and interpretations confirmed by the EU at year-end 2013 and that apply to its operations. The Company has not implemented standards, amendments thereto or interpretations entering into effect after year-end 2013 but allowed to be implemented sooner. The effect thereof on the Company's financial statements has not been fully determined but is considered to be insubstantial.

Corporate Governance Statement

Role of Landsnet hf.

Under the Electricity Act No. 65/2003, Landsnet’s role is to operate an electricity transmission system and administer its system management. The Company must ensure and maintain the capabilities of the transmission system on a long-term basis and ensure the electricity system’s operational security. Landsnet’s role is also to maintain a balance between electricity supply and demand at all times and manage the settlement of electricity flows countrywide. In addition, the Company is charged with promoting an efficient electricity market.

Corporate governance

The Board of Directors of Landsnet hf is committed to maintaining good corporate governance and complying with the Guidelines on Corporate Governance issued by the Icelandic Chamber of Commerce, NASDAQ OMX Iceland and the Confederation of Icelandic Employers in March 2012. The Board adopts Rules of Procedure defining the scope of its powers and duties vis-à-vis the President & CEO. The current Rules of Procedure were confirmed at the Annual General Meeting of Landsnet held on 31 March 2010 and are available for inspection at the Company’s head office.

Internal control and risk management

To ensure that Landsnet’s financial statements accord with generally accepted accounting practice, the Company has emphasised well-defined areas of responsibility, proper segregation of duties, regular reporting and transparency in its activities. The process of monthly reporting and reviews for individual departments is an important part of monitoring financial performance and other key performance indicators. Monthly financial results are produced and submitted to the Company’s Board of Directors. The Board of Directors monitors the Company’s financial risk and receives regular reports thereon. Information on risk management is provided in Note 29 to the annual financial statements.

Corporate values and Code of Ethics

Landsnet’s employees are obliged to abide by the Company’s values in all their activities. Its corporate values are informed by its role and future vision and provide the foundation for the corporate culture for which the Company strives. Landsnet’s values are: reliability, progress, economy and respect. These values are further defined as follows:

• Reliability. We show independence whilst maintaining due confidentiality and equal treatment of our customers. We show integrity and diligence in our behaviour and work methods.

• Progress. We take initiative, seek out opportunities and strive for continual improvement. We are creative and develop methods and solutions that stimulate competition. We pride ourselves on completing tasks and projects promptly and methodically.

• Economy. We maintain prudent stewardship of our funds and other resources and are guided by profitability targets.

• Respect. Our customers come first. We respect the natural environment and seek to minimise any undesirable effects of our operations. We respect our colleagues and their views and do not compromise on personal safety.

Landsnet’s Code of Conduct was approved at a meeting of the Board of Directors on 25 July 2005 and is designed to encourage honesty, justice and fairness among staff towards each other, the Company and its customers. The Code is also intended to promote the trust and confidence of customers and the general public in Landsnet, as well as to limit the risk of reputational damage. The Board of Directors is of the view that a clear Code of Conduct that is duly observed in the Company’s day-to-day activities forms the basis of its success and future growth. Landsnet’s Code of Conduct applies to all its employees, including the Directors and the President & CEO. The Code of Conduct is available for inspection at Landsnet’s head office.

Landsnet is committed to a strong community awareness. The Company’s policies include that the development of the transmission system aims to deliver macroeconomic benefits and minimise any undesirable environmental impact of its operations. They also include that Landsnet honours its obligations and supports projects that are of relevance to its activities and benefit society.

Landsnet's management structure

The main units of Landsnet’s management structure are the Board of Directors and the Executive Committee. Key roles are also performed by two committees appointed by the Board of Directors: the Audit Committee and the Remuneration Committee..

Relations between shareholders and the Board of Directors/management

Under the provisions of Act No. 75/2004 on the Establishment of Landsnet and the Electricity Act No. 65/2003, the Company's Directors shall be independent in all respects from other companies engaging in the generation, distribution or sale of electricity, whether these companies are owners of the Company or not. The purpose of these provisions is to meet the statutory requirement that the transmission system operator maintains utmost impartiality and non-discrimination in its activities.

With respect to the Company's special status under Chapter III of the Electricity Act and its strict duties to maintain impartiality and non-discrimination, it should be reiterated that shareholders are not permitted to interfere in individual affairs relating to Landsnet's activities.

As a rule, the shareholders' involvement must be limited to general policy decisions taken at regular shareholders' meetings, e.g. on financial targets.

Board of Directors

The Board of Directors of Landsnet hf is the supreme authority in the Company's affairs between Annual General Meetings. The Board is responsible for the Company's policy-making and major decisions between shareholders' meetings, as specified in, e.g., the Rules of Procedure of the Board of Directors. The Board supervises all Company operations, and works to ensure that its activities are in proper and good order at all times. The Board ensures sufficient supervision of the Company's financial management and that its accounts and financial statements are in good order. The Board engages the Chief Executive Officer of the Company, whose salary and employment terms are decided by the Remuneration Committee.

Landsnet's Board of Directors consists of the following three members:

Geir A. Gunnlaugsson, Chairman of the Board

Geir A. Gunnlaugsson was born on 30 July 1943 and lives in Reykjavík, Iceland. He read mechanical engineering at the University of Iceland, earned an MSc degree in mechanical engineering from the Technical University of Denmark and a PhD from Brown University, USA. He was professor of mechanical engineering at the University of Iceland in 1975-1986. He was chief executive of Icelandic Metals in 1983-1987, Marel in 1987-1999 and Hæfi, chairman of Reyðarál in 2000-2002 and chief executive of Promens in 2003-2006. Mr Gunnlaugsson has served on government negotiating committees on power-intensive industry and on the board of the Marketing Office of the Ministry of Industry and the National Power Company in 1988-1997, including as chairman in 1989-1997. He has sat on the board of numerous businesses, both Icelandic and foreign, as well as other organisations and institutions, and has extensive experience in business management in Iceland and overseas. Mr Gunnlaugsson has been a member of Landsnet´s Board of Directors from 31 March 2011.

Svana Helen Björnsdóttir, Director

Svana Helen Björnsdóttir was born on 20 December 1960 and lives in Seltjarnarnes, Iceland. She pursued studies in electrical engineering at the University of Iceland. She read electrical engineering at the Technische Universität Darmstadt in Germany, from which she earned a Dipl.-Ing./MSc degree in electrical power engineering in 1987. Ms Björnsdóttir also holds a diploma in operations management from the University of Iceland and is an IRCA-certified lead auditor of corporate information security management systems based on international standards. She founded the information security company Stiki in 1992 and the subsidiary Stiki Ltd in the United Kingdom in 1996. Ms Björnsdóttir is CEO of Stiki and has worked as an IT and software engineering consultant on various projects for companies and organisations. She has served as a government supervisor on various projects. She has extensive experience in business management, international co-operation and export activities. Her board memberships include Hagar hf, the Icelandic Data Protection Authority, the Association of Chartered Engineers in Iceland, the Seed Company Association in Iceland and the Icelandic Society for Information Processing. She has sat on the Expert Panels of the Technology Development Fund and Research Fund of the Icelandic Centre for Research (RANNÍS). For several years she was Iceland's representative on the Council of European Professional Informatics Societies. She was elected chairman of the Federation of Icelandic Industries in March 2012. Ms Björnsdóttir is also chairman of Akkur SI. In addition, she is a board member of the Confederation of Icelandic Employers, the General Pension Fund, the Association of Small Investors, the Science and Technology Council and the High Tech and Seed Forum, a consultative forum between government and business. Ms Björnsdóttir has been a member of Landsnet´s Board of Directors from 31 March 2009.

Ómar Benediktsson, Director
Ómar Benediktsson was born on 22 October 1959 and lives in Reykjavík, Iceland. He holds a cand. oecon. degree in business administration from the University of Iceland. He served in managerial positions in tourism and aviation for 30 years, including at Island Tours, Íslandsflug and Air Atlanta. He has sat on numerous boards and committees in these fields, including the Civil Aviation Board and the Icelandic Tourist Board, the Committee on Iceland's Future Policy on Tourism and as vice-chairman of Icelandair Group hf. Mr Benediktsson has been active in promoting Iceland as a tourist destination and has sat on a number of committees devoted to this end, including as chairman of the Icelandic Tourist Board Marketing Committee and chairman of Iceland Naturally, a co-operative marketing organisation. He founded the first Icelandic-owned specialised travel wholesaler offering trips to Iceland in Germany and later in other continental European countries. He sat on the preparatory committee for the founding of the Icelandic Travel Industry Association and on its nominations committee for the first few years. He has led the launch of a number of tourist industry companies, including Fosshótel. He was the first chairman of the Icelandic National Broadcasting Service after its conversion into a state-owned public limited company and sat on the boards of Blue Bird Cargo and Penninn for a number of years. Mr Benediktsson has long-standing experience in international business and relations. At the beginning of 2012, he became CEO of Farice ehf, which operates the submarine telecommunications network linking Iceland with the rest of the world. Farice is also a key player in developing Iceland's emerging data centre industry. Mr Benediktsson has been a member of Landsnet´s Board of Directors from 29 March 2012.

The Alternate Director is Svava Bjarnadóttir

A total of 15 meetings of the Board of Directors were held in 2013, which were attended by all Board members.

Landsnet´s Executive Committee

Þórður Guðmundsson, President & CEO, is a member of the Executive Committee.

Mr Guðmundsson was born on 2 October 1949 and lives in Garðabær, Iceland. He pursued studies at the Industrial Vocational School in Reykjavík, the Technical College of Iceland and the Norwegian University of Science and Technology, from which he graduated with an MSc degree in electrical engineering in 1978. He joined Landsvirkjun in 1978, starting as an engineer and later becoming chief engineer in the Operations department until appointed managing director of Operations in 1992. Following organisational changes in 1997, he became managing director of the Transmission division until appointed Landsnet's President & CEO on 1 January 2005.

The President & CEO is responsible for the Company's day-to-day activities. He/she is empowered to make decisions on all Company affairs not entrusted to others under Act No. 2/1995 and/or the Company's Articles of Association. The President & CEO conducts the operations of the Company in accordance with rules and/or decisions of the Board of Directors, the Articles of Association and the law. The President & CEO's signature constitutes an obligation on the Company's part. He/she is an authorised signatory of the Company ("procuration holder"). The President & CEO may grant power of attorney to other employees of the Company to exercise designated powers of his/her duties of office, provided that prior approval is obtained from the Board of Directors. The President & CEO is responsible for detecting, measuring, monitoring and controlling risks relating to the Company's operations. The President & CEO must maintain an organisation chart of the Company that clearly delineates areas of responsibility, employees' powers and communication channels within the Company. The President & CEO shall set internal control targets in consultation with the Board and monitor the effectiveness of internal control mechanisms. The President & CEO prepares meetings of the Board of Directors together with its Chairman and reports regularly to the Board on the Company's activities and position. The President & CEO is the chairman of the board of Landsnet ehf and a director of Samorka.

Other members of th Executive Committee are:
Guðmundur Ingi Ásmundsson, Deputy CEO
Guðlaug Sigurðardóttir, CFO

Corporate Governance Statement, contd.:

Audit Committee

The current Audit Committee of Landsnet hf was appointed on 10 November 2011 and consists of:
Ólafur Nilsson, accountant, Chairman
Geir A. Gunnlaugsson, Chairman of the Board of Landsnet hf
Ómar Benediktsson, Boardmember of Landsnet hf

The Audit Committee has adopted Rules of Procedure, which define the Committee's role as follows:
The Audit Committee shall, among other things, have the following role, regardless of the responsibilities of the Board of Directors, management staff or others in this area:

- Oversight of procedures for the preparation of financial statements.
- Oversight of the structures and functioning of the Company's internal controls, internal auditing, if applicable, and risk management.
- Oversight of the auditing of the annual financial statements and consolidated financial statements.
- Assessment of the independence of the Company's auditor or audit firm; monitoring of the work of the auditor or audit firm.

The Audit Committee also makes proposals for improvements and deliberates on matters at the Board's request.
A total of 4 meetings were held in 2013, all of which were attended by all Committee members except for one meeting where one member was absent.

Remuneration Committee

The Board of Directors of Landsnet hf performs the role of the Company's Remuneration Committee. Landsnet hf has formulated a Remuneration Policy, which was approved at the Company's Annual General Meeting on 31 March 2011. The Remuneration Policy can be viewed on the Company's website. The business of the Remuneration Committee is transacted at meetings of the Board of Directors when applicable.
